

we learn, we build, we play with  
**LEGO® Bricks**

# AFTER SCHOOL

So fun... it won't feel like learning!!

**2018 FALL PROGRAM,  
at Island Pacific Academy (IPA), GR. 1-5**

## JUNIOR ROBOTICS LEGO® WEDO 2.0

How would you like to turn your next LEGO® creation into a robot, programmed to do exactly what you tell it to do? The Bricks 4 Kidz® Junior Robotics after-school program offers all the fun of building with LEGO® Bricks, plus the challenge of computer programming! LEGO Education's WeDo 2.0 is a drag-and-drop, icon-based software that introduces kids to the world of wireless computer programming and robotics. This will equip children with the experiences they need to succeed in a technology-based marketplace. The updated WeDo 2.0 software allows your child to bring our proprietary Bricks 4 Kidz® models to life wirelessly, using Bluetooth communication via the 2.0 Smart Hub. This fun, action-packed program combines practical technology skills with endless fun for kids!
