

we learn, we build, we play with
LEGO® Bricks

AFTER SCHOOL

So fun... it won't feel like learning!!

2019 WINTER/SPRING PROGRAM Wednesdays at Island Pacific Academy (IPA), GR. 1-4

Our one hour classes explore architecture, engineering and technology concepts using LEGO® bricks. At Bricks 4 Kidz®, we believe it's important to tap into a child's potential by encouraging their curiosity and creativity in and out of the classroom. We reinforce S.T.E.M. based principles while enhancing self-esteem, improving fine-motor skills, and developing socialization. Kids will enjoy learning to build a new model each class!

Units for this semester include:

Winter Fun

Don't get left out in the cold! Bring the winter fun indoors with interactive Bricks 4 Kidz models of some popular winter activities from the hair-raising thrill of the luge to more the relaxing pace of the horse and sleigh.

Engineering Adventures

So you want to be an engineer or architect? Well what are you waiting for? This is your chance! Join us as we put our engineering skills to the test to build bridges, buildings, vehicles and more.

Galaxy Far Away

Join us on an adventurous journey through space! Build a rocket to blast through the atmosphere into a realm that is truly out of this world. Build a world where rebels and the dark side start epic battles.
