Course Description:

Make a L.E.A.P.P. into how you can Learn to Empower and Accelerate Potential and Performance for your students.

Learn techniques and support classroom implementation to enhance an educator's mindset and ability to create a learning space that will engage, empower, and prepare students to adapt to and solve the problems of the future.

This program will:

- Meet you where you're at and help you to go where you know you can
- Support you in creating classroom opportunities to incorporate practices and strategies to ensure discovery, exploration, and continued excitement for students in your classroom.
 - Instructional Strategies
 - Project Based Learning
 - Design Thinking
 - Student-led inquiry
 - Social and Emotional Learning

This two day workshop kicks off a 4 month supported journey that will provide the space, knowledge, time and coaching support for educators to:

1. Uncover and reconnect with their "Big Why"
2. Learn and practice curated foundational strategies* to create engaging learning spaces
3. Become a part of an innovative and learning community of educators
4. Implement and sustain purposeful and mindful student learning experiences
5. Tweak/create and implement a classroom unit lesson
